

TabCoat™

Advanced Instant-Release Tablet Coating System

TabCoat™ is an instant-release coating system designed to provide strong moisture protection, excellent stability and efficient processing for pharmaceutical and nutraceutical tablets. It's optimised **PVA-PEG** polymer matrix forms a robust moisture-resistant film, improves appearance and supports the performance of moisture-sensitive actives.

TGA-REGISTERED & READY FOR USE

All 11 TabCoat™ colours are registered with the Australian **TGA** as proprietary ingredients, enabling direct use in listed medicines without additional regulatory steps.

AVAILABLE COLOURS

- TabCoat™ Clear (PI: 148231)
- TabCoat™ White (PI: 148225)
- TabCoat™ Black (PI: 148234)
- TabCoat™ Pink – Pantone 196C (PI: 148228)
- TabCoat™ Red – Pantone 7628C (PI: 148226)
- TabCoat™ Orange – Pantone 171C (PI: 148229)
- TabCoat™ Yellow – Pantone 122C (PI: 148224)
- TabCoat™ Green – Pantone 2264C (PI: 148230)
- TabCoat™ Brown – Pantone 181C (PI: 148232)
- TabCoat™ Blue – Pantone 279C (PI: 148233)
- TabCoat™ Purple – Pantone 7661C (PI: 148227)

WHY CHOOSE TabCoat™?

- Superior Moisture Protection: Low-permeability PVA-PEG film safeguards sensitive ingredients.
- Fast Dissolution & Smooth Processing: 30% solids, low viscosity and rapid reconstitution enable short coating cycles and reliable instant-release performance.
- Strong, Uniform Finish: Flexible film resists cracking and delivers a premium appearance.
- Manufacturing Efficiency: Water-only preparation, plasticiser-free formulation and reduced energy use.
- Safe & Compliant: Biocompatible materials aligned with environmental and regulatory standards.

UPGRADE YOUR PRODUCT WITH TabCoat™

A high-performance, compliant and visually distinctive solution for modern tablet formulations.
